Historical luminaires hexagonal

THL-211 „Goch“

Historic luminaire with modern charm.

Through their discreet appearance this luminaire opens up numerous possibilities for a variety of lighting functions.

The application can be carried out in conjunction with our historical iron candelabra, but also on wall brackets and in multiple arm combinations. On a simple steel pole luminaire is an enriching addition to any sophisticated housing development.

On candelabra THK-610/610-A
